EVEN WELCOMES LAUREN C. REGAN, AAL, GUEST SPEAKER

Lauren C. Regan is a public interest attorney specializing in environmental law, civil rights and criminal defense. She is also the Founder and Executive Director of the Civil Liberties Defense Center, a nonprofit organization that strives to protect and educate the public regarding their civil liberties and constitutional rights. Lauren has successfully represented political activists in both civil and criminal litigation. The Civil Liberties Defense Center assists activists in curtailting government encroachment upon their right to protest, defends activists in court, assists with political prisoner issues, and monitors current governmental attempts to restrict civil liberties and dissent. She lives in Eugene with two cat companions, and is often found hiking Oregon’s forests and beaches with her constant canine companion, Nakia, the couch wolf. Lauren has been a vegetarian since she was 11, and has been a vegan for over 15 years. EVEN is very pleased to have Lauren Regan as its April speaker discussing the detrimental impacts of a meat- and dairy-based diet on ecological survival in her presentation “Lighten The Earth’s Burden On Earth Day--Go Vegan!”

HEARTFELT THANK YOU!

Special appreciation to EVEN friend and local chiropractor, Jerry Evans, D.C., (see EVEN Service Directory p.5) for presenting “Be As Healthy As A Horse” at our March 6 gathering. Everyone enjoyed Jerry’s informative and detailed presentation on the healthfulness of a vegetarian diet. Thank you, Jerry, for sharing your professional information with us on the special occasion of EVEN’s 1st anniversary.

EVEN’S 1st ANNIVERSARY BIG SUCCESS! ! !

EVEN was thrilled to have so much support, locally and nationally, to celebrate its 1st year of efforts. Our March 6th monthly meetng was both a festive and informative occasion, replete with balloons, smiles, hugs, photos and laughter. EVEN friends and supporters came from near and far to help make this a special occasion. Dr. Jerry Evans provided us with a delightful presentation, and our usual array of door prizes and snacks left everyone feeling fabulous and uplifted. EVEN thanks its special group of volunteers—Linda Sappington, Joanne Kress, Nadine Peterson, Nick Kress, Paula Ptacek and Kyrhya Thompson—who helped make this celebration possible. We are all looking forward to an EVEN bigger 2nd year! We couldn’t do it without all of you---our members, our supporters and our volunteers. (See pp 9 and 10 for more 1st Anniversary wishes.)

SPOTLIGHT ON CHARLOTTE CHILDERESS!

Mark your calendars for EVEN’s May 1 gathering when Charlotte Childress will share with us how she became an author, consultant, and a leader for equality and opportunity for all, by building upon what she learned from advocating for and loving animals. The Eugene Weekly reports Harriet and Charlotte Childress are "making waves with their book, Clueless at the Top." Charlotte will show us how to navigate through social and political resistance while expanding allies among diverse groups. Don’t miss this forward-thinking talk. Monday, May 1, 7pm, McNail-Riley House. (See info below on EVEN’s monthly gatherings.)

EVEN’S MONTHLY GATHERINGS

EVEN’s monthly Veg Gatherings are held the 1st Monday of each month (except holidays), 7pm, at the McNail-Riley House, 601 W. 13th Av (@ Jefferson) across the street from the fairgrounds. One day people will look back with amazement that we ever sought to grow our food with poisons. John Robbins
GEORGE EISMAN GIVES CLOUT TO MEATOUT

We had special cause to celebrate this year’s Great American Meatout on March 20th. EVEN was able to deliver a nationally-renowned writer, educator, and speaker, George Eisman, to an eager and inquiring Eugene audience. George offered a free, outstanding lecture on the benefits of a veg-based diet that left the audience of more than 60 people buzzing. His presentation made it so obvious why meat and dairy are extremely injurious to our health that it is hard to imagine why any rightly-informed, rational being would ever want to consume these harmful “foods”. He gave all of us a clearer understanding of why—and how—to be healthy, and showed how a vegan diet is logical, simple and healthful. Thank you, George! We are so proud to have been able to host this exceptional vegan educator.

EVEN would also like to thank the University of Oregon for providing the excellent facilities, David at the Survival Center for his help and support, Toby’s Family Foods, Sweet Life Bakery, and Linda Sappington for providing the delicious vegan snacks, Farm Sanctuary for making George Eisman available to us on this special day, and Farm Animal Reform Movement (FARM) for providing us with such excellent literature. And thank you EVEN volunteers Linda Sappington, Nadine Peterson and Joanne Kress—-who helped make this event such a resounding success! The word IS getting out there… GO VEG!!

MOST OF US ARE ENVIRONMENTALISTS… Until We Sit Down To Eat

These days, most Americans consider themselves to be red, white, and blue and green. According to polls, three-quarters of us are environmentalists. We recycle our garbage, hang our wash on the line to dry, and even compost our supper scraps to make the world a better place. But if we really want to soothe Mother Earth’s ills, we can’t do it on a diet of chicken, fish, pork, and beef. Try as you might, you simply aren’t an environmentalist until you start eating green.

Environmental groups, including the National Audubon Society and the Union of Concerned Scientists, have recognized that raising animals for food has a worse effect on the planet than just about anything else we can do.

America’s meat addiction is steadily poisoning and depleting our clean water, arable land, and fresh air. In fact, raising animals for food requires more water than all other uses of water combined, causes more water pollution than any other activity, is responsible for 85% of soil erosion, and requires 1/3 of all raw materials used in this country (with the air pollution that entails). According to the Environmental Protection Agency, hog, chicken, and cattle waste has polluted 35,000 miles of rivers in 22 states and contaminated groundwater in 17 states.

WHAT IS MISSING?  by Robert Jacobucci

Have you ever wondered why so many of us in our society make choices that are bad for our health, the environment, for society, and definitely for the animals? How could so many of us be so wrong?! Is there one ingredient, one quality, that could pull it all together for us?

If we look closely, we see the missing ingredient is compassion. Certainly, most people claim to possess it. We all may talk about it. However, with any scrutiny at all, we see that, as a society, our values, our actions, and our everyday lives belie our claim.

How could true compassion cheer for war and the killing of innocent women and children? How could compassion routinely slaughter and torture the defenseless animals? How could compassion poison and destroy our environment? How could compassion use all the world’s resources in our own lifetime so that our children and grandchildren will have nothing left but a barren shell of planet?

Compassion is the right hand of Love. Why are these sacred values missing in our society and our hearts? Is it because we have been conditioned since birth to put our own wants, desires, pleasures and bank accounts ahead of what is good for others, and unquestionably what is good for Earth and the animals? Our lives are completely centered on the “Me”.

Love and Compassion, on the other hand, think outside the self. Their focus is on what we can give—not what we can get. Self-centeredness is always looking to get as much as it can and to give as little as possible. “What’s in it for me?” is what it is always ready to ask. How can such a person form a lasting relationship with anything... or anyone? True Love, on the other hand, finds joy in giving and, in any relationship, thinks nothing of giving more than it gets.

As human beings, we have choice. We have free will. We have the ability to choose Love over personal gain. Thankfully, every day gives us a new opportunity to try again, to start over, to do what is right. It is a Sacred Gift that the moment we choose Love over the “Me”, we will find a whole new world of harmony and joy has opened to us.

Three things in human life are important. The first is to be kind. The second is to be kind. The third is to be kind. Henry James

PEACE & SUSTAINABILITY LECTURE SERIES CONCLUDES SEASON ON A SUCCESSFUL NOTE

This remarkable and interesting monthly series kicked off May 2005 to investigate the wide spectrum of crises afflicting the human condition and to look for common causes. It clearly showed how the issues of Peace, Environment, Health, and Sustainability are all interconnected. For example, we saw unmistakably that there can never be a lasting Peace that did not involve Sustainability. It was also made apparent that all the environmental problems have a common cause—living unsustainably. And we learned how technology, as a tool of the human mind, can never solve our ever-worsening situation as long as Greed is in the driver’s seat. To remedy our tenuous condition, a whole new set of values and priorities must come into play. Furthermore, we cannot expect these urgent changes to initiate at the top—they must begin with, and within, ourselves!

The lectures in this series were:

- Can Humankind End Violence?
- Is “Progress” An Illusion?
- Living Sanely In An Insane World
- What’s Missing in Government? In Society?
- Sustainability’s Greatest Challenge: Overcoming Greed! Can We Do It? If So, How?
- Is Change Possible?
- Creating Harmony: in Society and Within Ourselves
- The Limits and Limitations of Science
- Breaking the Habit of Unsustainability
- Unsustainability in Crisis: Preparing for the Coming Changes
- Can There Ever Be Peace Without Sustainability?

Look for this stimulating lecture series to resume in the fall with a new and exciting expanded format. It is a fascinating and thought-provoking lecture series you won’t want to miss! (Robert Jacobucci can be reached at 343-8055 or oneearth@comcast.net)

EVEN BRINGS AWARD-WINNING CARTOONIST TO EUGENE
His Baloney Has a First Name...It's "Bizarro"
"The Bizarro Baloney Show: Comedy for a Cause" is coming to Eugene April 24!!

Created and performed by nationally-syndicated, award-winning cartoonist Dan Piraro, this show is a one-man variety act that appeals to college students, cartoon fans, animal lovers, and those politically to the left. There's simply nothing else out there like it.

The New York Times called "The Bizarro Baloney Show" a "shrewd tour of an artist's imagination" and audiences rave in agreement. Comedy and music venues along the West Coast have eagerly booked the show and the calendar is full. The tour kicks off April 13th at Improv Olympic West in the heart of Hollywood. In addition to Eugene, Piraro will also be performing his show in San Francisco, Mill Valley, Berkeley, Santa Cruz, Portland, and Seattle.

EVEN is proud to sponsor Dan's performance in Eugene at the University of Oregon, PLC #180, Monday, April 24. Doors open 7:30p. Free parking! Buy tickets in advance at the UO Ticket office, EMU Building, MO-FR 9a-5p or at the door. 343-8055 for information.

People for The Ethical Treatment of Animals (PETA) and Physicians Committee For Responsible Medicine (PCRM) are endorsing The Bizarro Baloney Show through their e-newsletters.

The Bizarro Baloney Show is on tour in conjunction with the release of Piraro's 14th book, Bizarro and Other Strange Manifestations of the Art of Dan Piraro, from Abrams Books. Piraro is funding the tour himself and all proceeds (after travel expenses) will benefit Dan's favorite animal welfare organizations. Is this guy a peach, or what? Watch for more information or call 343-8055.

Dan Piraro's one-man comedy performance, The Bizarro Baloney Show, is every bit as strange, inventive, and funny as his cartoon strip, "Bizarro." Unlike so many performers in these times of political pressure and censorship, Dan stands up for his beliefs without apology and to hilarious effect. He makes his audiences think as well as laugh and is a tireless advocate for animals and the environment. All that and he gives the profits from his shows to animal rescue groups. What a guy! STICK UP FOR CHICKENS! SUPPORT UNITED POULTRY CONCERNS
United Poultry Concerns (UPC) is a nonprofit organization that promotes the compassionate and respectful treatment of chickens and other domestic fowl. We urge people: Don't Just Switch from Beef to Chicken – Go Vegan! Founded in 1990 by UPC President Karen Davis, UPC is the only organization in the country (and possibly the world) exclusively devoted to the plight of domestic fowl. UPC focuses on these birds because they are the largest number of abused warm-blooded animals in the world.

Along with the billions of birds who are slaughtered each year for food, millions more of these birds suffer in laboratories, get dumped in animal shelters, and die miserably in poultry houses without anyone knowing they ever lived. In fact, it was Karen Davis’s discovery of a little crippled hen named Viva, abandoned in a filthy chicken house in Maryland, which led her to start UPC on behalf of all the “Vivas” in the world who desperately need their voices to be heard.

United Poultry Concerns’ quarterly magazine Poultry Press won praise from UTNE magazine in 2005 as one of the best publications produced by a nonprofit organization. To learn more and become a member, visit www.upc-online.org or contact UPC, PO Box 150, Machipongo, VA 23405. (757) 678-7875.

Veg*ns like to patronize other veg*ns. When we pay for products or services, we feel better knowing our money will more likely buy a head of lettuce or a bunch of grapes and not a t-bone steak or lamb chop. Please patronize these local vegans and vegetarians for the fine products and services they offer…and sleep better tonight knowing you made the world a little more peaceful.

In December 1988, coming home from the beaches near La Push [Washington], Annick and I passed by a chaos of clear-cut logging near the little town of Forks—heedless wreckage, mile-long swatches of torn earth and the jagged rotting stumpsage of the cedar trees, limbs crushed into the black mud. Imagine the earth perfectly violated. William Kittredge Who Owns the West?
THE OPTIMYSTIC VEGAN by Nadine Peterson

*Enchanted April* is the title of one of my favorite movies. It is sweet, magical, and has an uplifting, happy ending. The book on which the movie is based was written around the 1920s and even way back then people were dealing with relationships and exploring the unknown.

My relationship with the planet on which we all live---mother earth, terra, Gaia---was an unknown to me until 1970 when the idea of the earth as a living ‘thing’ was first presented to me with the advent of “Earth Day”.

Earth Day? What does that mean? I wondered. Of course, we know about the ground we walk on and that it takes at least 80 days to go around the world in a hot-air balloon, but so what?, I shrugged. What were people interested in when they created Earth Day anyway? I just couldn’t ‘get it!’ But I could feel a tug on my mind to definitely continue thinking about this Earth Day event and to investigate what the tug was.

What is the Earth to me? was the question, the tug. I started to have quick scenes of trees, mountains, beaches, sunny skies with fluffy clouds, waterfalls and flowers in fields with bubbling streams meandering into the horizon pass through my mind like a short subject movie. And along with these scenes I was feeling a deep loving connection like I do with fun times and friends and family and, suddenly, ‘I got it!” I was feeling the spirit of an enormous, powerful entity and I was living on its body! Oh, my, Gawd!

It’s true. The impact of realizing that day after day I have been breathing and being kept alive by the grace and kindness of this, this person of a planet, was an overwhelming sensation and I love it! I literally feel “in love” with you, Gaia, and I know by the feeling, you are as real as any other relationship in my life.

I guess sometimes it is true, you can’t see the bigger picture for all the little ones. Until, one by one, we may all step back (or into the feeling, as I did) and notice “She” is all-one with “us” on board! And we may treat Her well as She does us.

Will you teach your children what we have taught our children?
That the earth is our mother?
What befalls the earth befalls all the sons of the earth.

This we know: the earth does not belong to man, man belongs to the earth.
All things are connected like the blood that unites us all.

Man did not weave the web of life, he is merely a strand in it.
Whatever he does to the web, he does to himself.
