DAVID DUEMLER GUEST SPEAKER
David Duemler has taught psychology at Lane Community College since 1994. He is a long-time activist in the Eugene community: formerly coordinator of Citizens for Animal Rights, Eugene; currently on the board of Eugene PeaceWorks and the steering committee of Justice Not War. With Gene Bauston of Farm Sanctuary, he led an effort to ensure that all livestock in Oregon have sufficient living space to turn around and stretch their limbs. Though this effort ultimately failed, it did lead to a successful effort in Florida to ban the sow gestation stall. David has been a vegan since the mid-1980s, and carless since 2001. David Duemler is EVEN’s August speaker presenting “Ethics of Animal Factories”. Don’t miss this powerful and insightful presentation!

FREE VEG MAGAZINES!
EVEN folks can help themselves to any of the magazines on the back table. They are all free for the taking, just try to pass them on to be reread by as many other folks as possible. So take what you will, keep them as long as you need, and then instead of deep-sixing it into the recycle pile, pass on to another interested party. If you don’t know one, just return it back to the Freebie table and let someone else pick it up. (Re-use is better than re-cycle.) By the way, many thanks to Rebecca Walker for donating 5 copies of Vegetarian Times to EVEN. Thank you, Rebecca!

**HOT OFF THE PRESS** Shouldn’t I Drink Milk? Milk: No Longer Recommended or Required!]
"A substantial body of scientific evidence raises concerns about health risks from cow’s milk products. These problems relate to the proteins, sugar, fat, and contaminants in dairy products, and the inadequacy of whole cow’s milk for infant nutrition...[Also] Dairy products offer a false sense of security to those concerned about osteoporosis. *In countries where dairy products are not generally consumed, there is actually less osteoporosis than in the United States.* Studies have shown little effect of dairy products on osteoporosis. The Harvard Nurses’ Health study followed 78,000 women for a 12-year period and found that milk did not protect against bone fractures. Indeed, *those who drank three glasses of milk per day had more fractures than those who rarely drank milk.*” [http://www.pcrm.org/health/veginfo/milk.html](http://www.pcrm.org/health/veginfo/milk.html)

- ♥ Americans consume **a million animals an hour**. Every second, 300 living beings are slaughtered for food.

ARE YOU FREECYCLING YET?

The **Freecycle Network™** is made up of many individual groups across the globe. It's a grassroots movement of people who are giving (8 getting) stuff for free in their own towns. Each local group is run by a local volunteer moderator. Membership is free. The **Freecycle Network** was started in May 2003 by environmentalist, Deron Beal, to promote waste reduction in downtown Tucson and help save desert landscape from being taken over by landfills. The Network provides individuals and non-profits an electronic forum to "recycle" unwanted items. One person's trash can truly be another's treasure! Go to [www.freecycle.org](http://www.freecycle.org) to learn more; sign up (FREE) for **Eugene Freecycle** at [http://groups.yahoo.com/group/FreecycleEugene/](http://groups.yahoo.com/group/FreecycleEugene/)
